

**Legendary.** This word has exploded on the scene recently and refers to something that is amazingly wonderful and timeless. Myths and legends are nothing new though. They have existed since the dawn of time within every culture across the globe. These legends are often highly debated for their blurring lines between truth and make believe.

We explore these myths and legends in their relation to the 4 elements as we listen to, read, tell and create our world through unforgettable stories. We will learn to express ideas clearly, listen actively and debate with reason.

**This course would be perfect if you want to...**

- ✓ **Spark your Imagination**
- ✓ **Cultivate Curiosity**
- ✓ **Develop Multicultural Understanding**
- ✓ **Develop and Express Independent Opinions**

### Purpose

This course is designed to spark the imagination of children by exploring international myths and legends. Students will be encouraged to look at the world in new ways as they listen to, research and present myths and legends from often unknown cultures around the world.

### Goals

Students complete the course with a better understanding of different world cultures and a curiosity to learn more about the living (and unliving) beings that inhabit it. Students must work independently to learn and retell myths. Students will need to debate and express themselves clearly while also using their own creativity to develop their own stories.

5 x 1-hour sessions -- Ages: 8+ -- Min class size: 3 -- Max class size: 8 -- Cost: 60 GBP
